

What makes QuickBooks Payroll different

QuickBooks Payroll powered by Employment Hero will radically change the way you do payroll. Efficient, intelligent and automated—paying employees and staying compliant will become the easiest part of your job.

RIP Double Handling

No more entering the same data in multiple systems. Do it once, and we'll make sure it's synced everywhere you need it in QuickBooks Online—from the general ledger to your quarterly BAS.

Utterly compliance obsessed

Not only do we ensure your Single Touch Payroll 2.0 requirements are covered, but QuickBooks Payroll will update and apply Modern Awards according to the latest Fair Work Australia conditions. It's never been easier to know your clients are staying compliant.

Help is a g'day away

Pick up the phone and speak to our dedicated payroll experts based in Australia. Advisors can get over-the-phone product support at all stages of their payroll journey, including assistance migrating their payroll data from another provider.

How will Quickbooks Payroll change the way we work?

	Feature	Quickbooks Payroll Standard	Quickbooks Payroll Plus	Why is this important?
Getting Started	Import employees and opening balances	✓	✓	Don't wait around for a new financial year - import existing employee data and opening balances and be up and running in no time.
	Employee self on-boarding	✓	✓	No more paperwork and double-entry! Name and email is all you need to get your new staff onboarding themselves.
	Data extracts	✓	✓	We don't restrict you accessing your own data. Easily export the data you need.
Pay Conditions & Automation	True award interpretation		✓	No manual calculations necessary, ever! Install an award for automatic calculation of Fair Work pay conditions such as overtime and time in lieu.
	Award related agebased progression		✓	No need to keep track of employee birthdays anymore! New pay rates based on birthdays are automatically applied.
	Costed rosters		✓	Know and manage wages costs before they happen.
	Costed timesheets		✓	Know your wages costs and compare quickly and easily with the roster for any discrepancies.
	Pay conditions engine for unique scenarios		✓	Build the rules of your Enterprise Agreement for automating your own pay conditions.
	Automated pay runs	✓	✓	Yes! Automated Pay Runs is exactly that - set and forget and have the system cause the pay run to stop based on triggers chosen by you.
Time & Attendance	Clock on/off - Remote WorkZone app	✓	✓	Perfect for employees out and about, with gps tracking for each clocking event.
	Clock on/off - On-site Clock Me In app		✓	Automatic timesheet creation upon clock-off.
	Live view		✓	A real time view of all clocking activities across the business.
Payroll	Salary sacrificing and deduction management	✓	✓	Set and forget - automatic expiry of deductions once they reach a certain date or amount.
	Employer liabilities	✓	✓	Set and forget - automatic expiry of employer liabilities once they reach a certain amount or date.
	Leave management	✓	✓	Employee leave requests feed directly into payroll for easy calculation and management of balances.
	Terminations	✓	✓	Automatic calculation of leave accruals to be paid out and correct taxing - employment terminations with just a few clicks.
	Expense management	✓	✓	A fuss-free process for employees to apply for business expense reimbursements.
Employees	Employee self service WorkZone app	✓	✓	Empower your employees to communicate with management and payroll. Easily have your staff managing their own details, accepting shifts, logging leave, timesheets and expenses. Delegate tasks appropriately.
ATO Integration & Super	STP compliant	✓	✓	Easily submit pay events post every pay run, straight from QuickBooks Payroll with our own ATO integration - there really is not much to it.
	Super payments	✓	✓	Make super payments quickly and seamlessly using our integration with Beam. Let QuickBooks Payroll and Beam do the heavy lifting for you.
