

Get ready for the new Intuit ProPartner Accountants program

Intuit ProPartner Accountants is a new global partner program built into Intuit Accountant Suite. ProPartner Accountants represents our renewed investment in firms of all sizes with expanded benefits, future-focused education, and connected community to help your firm thrive in a changing industry.

Before the program launches, make your transition as seamless as possible by following this guide.

In early 2027, ProPartner Accountants will succeed the ProAdvisor Program.

Your readiness checklist

To ensure your firm is ready for the transition from the legacy ProAdvisor Program to Intuit ProPartner Accountants in early 2027, you'll need to take these three foundational steps now:

1

Switch to Intuit Accountant Suite

Since ProPartner Accountants runs on IAS, you'll need to switch from QuickBooks Online Accountant to access program benefits. Your primary admin can do this in QBOA's **Subscriptions and billing** tab, or by creating a new account [on our website](#).

2

Add a client and certification to advance to a higher tier

Transitioning to IAS lands you on the Member tier. To advance to Partner status and above, you must add at least one client on the platform and have at least one team member actively certified (QuickBooks Online Level 1 or 2, Payroll, or Intuit Enterprise Suite).

[Learn more about tiers on the next page.](#)

3

Consolidate your consoles

If your firm has multiple consoles, plan to consolidate them so your tier accurately reflects your full book of business and you can maximize the program when it launches in early 2027.

See your projected tier

See where your firm stands ahead of launch. Spot the gap and take action to secure your ideal tier in early 2027.

Legal disclaimer

This document is informational only and does not establish any legal or financial obligation on Intuit's part. All information and details contained in this guide is subject to change without notice, including but not limited to program tiers, benefits, features, methodology, and functionality. Any projected or displayed tier status is an estimate only and is not guaranteed. Additional terms, conditions, fees, and eligibility criteria may apply to certain tiers, benefits, or features.

Tier structure

- Program benefits are structured in 5 tiers: Member, Partner, Preferred Partner, Premier Partner, and Elite Partner.
- Each tier's benefits are defined in the comprehensive chart on the next page.
- Advance to a higher tier as you achieve the requisite number of points for each tier.

Actions to advance

Earn points for your firm through **revenue under management** and **certifications**, and you can get a head start today. Points earned now can help unlock a higher tier when ProPartner Accountants launches in early 2027.

Revenue under management

Earn 1 point for every \$100 of revenue under management. This is the combined spend of your firm and all clients attached to your firm in Intuit Accountant Suite, across qualifying products.

Certifications

Earn 5 points per certification completed by anyone on your staff, up to 20 points per year firm-wide.
