

Items to Note:

TaxWise to ProSeries

This list provides details about how ProSeries converts the calculated carryovers. The 2023 converted client file is not intended to duplicate or reproduce your 2023 return. The information converted is captured in a way that converts to 2024 correctly once the file has been transferred into 2024.

General Limitations:

- Generally, lines that are overridden in TaxWise will not convert.
- On Address Fields that are not broken down by separate fields (i.e. address, city, state, and zip), any multi word city names will only convert the last word to the city field, and the beginning words will be in the address field.

Specific Form Conversion Limitations:

- Estimates: Next year's estimates do not convert and must be manually entered.
- Assets tied to Rental properties may not be linked correctly. You will need to examine your assets to verify that rental assets are properly linked.
